

DESKTOP PUBLISHING AND DESIGNING

Unit-II: Page Layout & PageMaker

Comprehensive Study Notes

UNIT-II: PAGE LAYOUT & PAGEMAKER

1. Page Layout

1.1 What is Page Layout?

Page Layout refers to the arrangement of text, images, and other elements on a page. It involves organizing visual elements to create an attractive and readable document.

1.2 Different Page Formats / Layouts

Format	Description	Use
Portrait	Taller than wide (Vertical)	Books, Letters, Reports
Landscape	Wider than tall (Horizontal)	Brochures, Posters, Spreadsheets
Square	Equal width and height	Instagram, Social Media
Tabloid	Larger than standard	Newspapers, Posters
Broadsheet	Very large format	Newspapers

1.3 Newspaper Page Format

Newspaper pages follow specific layouts to organize content effectively, typically using multiple columns, headlines, bylines, and pull quotes.

1.4 Columns and Gutters

Columns are vertical divisions of a page. **Gutters** are the spaces between columns.

Term	Description
Column	Vertical division of text

Gutter	Space between columns
Margin	Space around the page edge
Alley	Space between elements

1.5 Printing in Reduced Sizes

Reduced printing involves printing documents at a smaller size than the original.

Reason	Description
Proofing	Checking layout and content
Cost Saving	Saving paper and ink
Portability	Easier to carry and review
Planning	Previewing final output

2. PageMaker

2.1 What is PageMaker?

PageMaker is a desktop publishing program developed by Adobe for creating professional publications.

2.2 PageMaker Toolbox

Tool	Function
Arrow/Pointer	Select and move objects
Text	Insert and edit text
Rotate	Rotate objects
Zoom	Zoom in and out
Line	Draw straight lines
Rectangle	Draw rectangles
Ellipse	Draw circles/ovals
Polygon	Draw polygons
Frame	Create frames for text/images
Crop	Crop images
Hand	Pan around document
Table	Create tables

2.3 PageMaker Styles

Styles are predefined formatting options that can be applied to text for consistent formatting throughout a document.

2.4 PageMaker Menus

Menu	Purpose
File	Open, Save, Print, Import, Export
Edit	Cut, Copy, Paste, Select All, Find, Replace
Layout	Page Setup, Margins, Columns
Type	Font, Size, Style, Alignment
Element	Group, Ungroup, Lock, Unlock
Utilities	Spell Check, Plug-ins
View	Zoom, Display Mode
Window	Arrange and switch between windows
Help	Documentation and support

2.5 Different Screen Views

View	Description
Normal View	Standard editing view
Story View	Text-only view
Layout View	Full layout view
Preview View	Final output preview
Master View	Edit master pages

3. Importing, Menus & Commands

3.1 Importing Text and Pictures

Importing brings external files into PageMaker.

Import Type	Format
Text	.txt, .doc, .rtf
Images	.jpg, .gif, .tif, .bmp, .eps
Graphics	.ai, .cdr, .eps

3.2 Auto Flow

Auto Flow automatically flows text from one column to the next, making it easy to handle large amounts of text.

3.3 Master Pages

Master Pages are templates that apply consistent design elements (headers, footers, page numbers) to all pages in a document.

3.4 Story Editor

Story Editor provides a text-only view for editing content without layout distractions.

3.5 Menu Commands and Shortcut Keys

Command	Shortcut	Function
New	Ctrl+N	New document
Open	Ctrl+O	Open document
Save	Ctrl+S	Save document
Print	Ctrl+P	Print document

Import	Ctrl+I	Import text/image
Cut	Ctrl+X	Cut selection
Copy	Ctrl+C	Copy selection
Paste	Ctrl+V	Paste selection
Undo	Ctrl+Z	Undo last action
Redo	Ctrl+Y	Redo last action
Find	Ctrl+F	Find text
Replace	Ctrl+H	Replace text
Select All	Ctrl+A	Select all
Page Setup	Ctrl+Shift+P	Page setup

3.6 Spell Check

Spell Check checks the document for spelling errors.

3.7 Find and Replace

Find and Replace searches for text and replaces it with new text.

3.8 Import and Export

Operation	Description
Import	Bring external files into PageMaker
Export	Save PageMaker files in other formats

Export Formats:

- .txt (Text)
- .doc (Word)
- .rtf (Rich Text)

- .eps (Encapsulated PostScript)
- .pdf (Portable Document Format)

4. Typography

4.1 Fonts

A **font** is a collection of characters with a specific design.

+-----+	+-----+
SERIF FONTS	SANS SERIF FONTS
+-----+	+-----+
+-----+	+-----+
Times New Roman	Arial
Georgia	Helvetica
Garamond	Verdana
Palatino	Calibri
+-----+	+-----+

4.2 Font Categories

Category	Description	Examples
Serif	Has small lines at ends of characters	Times New Roman, Georgia
Sans Serif	No lines at ends of characters	Arial, Helvetica
Script	Looks like handwriting	Brush Script, Mistral
Decorative	Ornamental, used for headlines	Impact, Broadway
Monospace	All characters same width	Courier, Consolas

4.3 Font Effects

Effect	Description
Bold	Thicker characters
Italic	Slanted characters
Underline	Line under characters

Strike-through	Line through characters
Shadow	Shadow effect
Outline	Outline effect
Raised	Superscript
Lowered	Subscript

4.4 Point Sizes

Point is a unit of measurement for font size. 1 point = 1/72 inch.

Point Size	Approximate Size
8 pt	Small (footnotes)
10 pt	Normal text
12 pt	Standard text
14 pt	Subheadings
18 pt	Headings
24 pt	Large headings
36 pt	Titles
48 pt	Display text
72 pt	Poster text

4.5 Spacing

Type	Description
Leading	Space between lines
Tracking	Space between characters

Kerning	Space between specific character pairs
Paragraph Spacing	Space between paragraphs
Word Spacing	Space between words

5. Printer Setup & Scaling

5.1 Installing Printers

Printer Installation Steps:

1. Connect printer to computer via USB or network
2. Install printer driver software
3. Configure printer settings
4. Print a test page

5.2 Scaling (Percentages)

Scaling allows printing documents at different sizes.

Scale	Description
50%	Half size
75%	Three-quarter size
100%	Original size
150%	One and half times
200%	Double size

5.3 Printer Setup Options

Option	Description
Paper Size	A4, A3, Legal, Letter
Orientation	Portrait, Landscape
Copies	Number of copies
Print Range	All, Current, Pages

Resolution	300 dpi, 600 dpi, 1200 dpi
Color	Color, Grayscale, Black & White

Questions

Short Answer Questions (2-5 Marks)

1. What is page layout?
2. What are the types of page orientations?
3. What are columns and gutters?
4. What is PageMaker?
5. What are the tools in PageMaker toolbox?
6. What are master pages?
7. What is auto flow?
8. What is the story editor?
9. What is the difference between serif and sans serif fonts?
10. What is leading in typography?

Long Answer Questions (10 Marks)

1. Explain the PageMaker interface with its components.
2. Explain the different tools in PageMaker toolbox.
3. Explain master pages and their importance.
4. Explain importing text and images in PageMaker.
5. Explain fonts, point sizes, and spacing in PageMaker.

Objective Questions (1 Mark)

1. PageMaker was developed by:
(a) Microsoft (b) Adobe (c) Corel (d) Apple
2. The space between columns is called:
(a) Margin (b) Gutter (c) Alley (d) Leading
3. The shortcut for Save is:
(a) Ctrl+S (b) Ctrl+O (c) Ctrl+N (d) Ctrl+P
4. Serif fonts include:
(a) Arial (b) Times New Roman (c) Helvetica (d) Verdana

5. 12 point text is:

(a) Small (b) Normal (c) Large (d) Very large

Quick Revision

Page Layout Summary

Page Layout: Arrangement of text, images, and elements on a page
Formats: Portrait, Landscape, Square, Tabloid, Broadsheet
Elements: Columns, Gutters, Margins, Alleys

PageMaker Tools

Arrow, Text, Rotate, Zoom, Line, Rectangle, Ellipse,
Polygon, Frame, Crop, Hand, Table

Typography Basics

Font Categories: Serif, Sans Serif, Script, Decorative, Monospace
Spacing: Leading (line), Tracking (char), Kerning (pairs)
Point Sizes: 8pt to 72pt
